Trauma-Informed Recovery-Oriented System of Care Transformation Academy application

Dear Colleague,

In 2016, more than 700 Hoosiers died as a result of an opioid overdose. But, many of these deaths were avoidable. There are effective tools, methods and approaches to prevent and treat opioid and other substance use disorders. Long-term recovery is possible—approximately 25 million adults in the U.S. are in remission from SUD.

A Trauma-Informed Recovery-Oriented System of Care is a promising approach for county-wide prevention, treatment and recovery supports. TI-ROSC provides comprehensive services to individuals with substance use disorder and support long-term recovery in the face of the opioid overdose crisis.

The [Indiana Division of Mental Health and Addictions](#), in partnership with the [National Council for Behavioral Health](#), is pleased to welcome your county to [apply](#) to a Transformation Academy. This process is designed to support your efforts to create a TI-ROSC in your county through training, coaching, peer learning and assessment and planning tools.

Applications are due July 19, 2019. [Apply today!](#)

Watch this [video](#) to learn more about the Transformation Academy process. Still have questions? Attend office hours with the Transformation Academy faculty:

- **Wednesday, July 10, 2019, from 2 -3 p.m. CDT**
 - To join, please dial: 1-888-727-2247, Conference ID: 5831414
- **Wednesday, July 17, 2019, from 10 -11 a.m. CDT**
 - To join, please dial: 1-888-727-2247, Conference ID: 5831414
